

BIKASH GOSAIN

Aspiring DevOps Engineer | Python/Django Developer · CSIT Student

Dekocha-10, Bhaktapur, Nepal | +977-9861040522 | bikashgosain0@gmail.com | github.com/BikashGosain | linkedin.com/in/bikash-gosain | [Portfolio](#)

PROFESSIONAL SUMMARY

CSIT student with hands-on backend development experience in Python and Django, combined with practical DevOps experience in Docker, AWS, and CI/CD through dedicated coursework and projects. Also have academic exposure to cloud computing with Microsoft Azure. Experienced in containerizing and deploying full-stack applications using Docker and CI/CD pipelines. Interested in DevOps, Cloud, and Infrastructure opportunities where I can apply my skills, contribute to real-world projects, and continue developing my technical expertise.

TECHNICAL SKILLS

Cloud & DevOps: AWS, Microsoft Azure, Cloudflare, Docker, CI/CD (GitHub Actions)

Languages & Frameworks: Python, Django, Django REST Framework

Database: PostgreSQL, MySQL, SQLite

Frontend: HTML, CSS, JavaScript

Tools: Git, GitHub, Postman, VS Code, Linux/CLI

PROJECTS

BloggerNepal — *Python · Django · PostgreSQL · Docker · Azure · HTML/CSS/JS*

Demo: [Live demo](#) · GitHub: github.com/BikashGosain/BloggerNepal

- Built a Nepal-focused blogging platform with authentication, content recommendation, analytics, and Cloudinary media integration; initially deployed on Render and later deployed on Microsoft Azure with PostgreSQL and Docker.

RentMS — Rental Management System — *Python · Django · PostgreSQL · Docker · Azure · HTML/CSS/JS*

Demo: [Live demo](#) · GitHub: github.com/BikashGosain/Rent_Management_System

- Built a full-stack rental management system connecting landlords and tenants, with admin management features and a complete property rental workflow; Implemented REST APIs, deployed on Microsoft Azure and Render with PostgreSQL.

Django JWT API Token Authentication — *Python · Django · DRF · SimpleJWT · HTML/CSS*

Demo: [Live demo](#) · GitHub: github.com/BikashGosain/Django-JWT-API-Token-Authentication

- Built a REST API with JWT-based authentication and role-based access control using DRF and SimpleJWT.

Student Portal System — *Django · PostgreSQL · HTML/CSS*

Demo: [Live demo](#) · GitHub: github.com/BikashGosain/Student-Study-Portal

- Built a student portal with note management, homework tracker, and to-do list as a centralized study resource hub; deployed on Render with PostgreSQL.

DRF Project — *Python · Django · Django REST Framework*

GitHub: github.com/BikashGosain/drf-project

- Practiced core DRF concepts — function-based views, class-based views, mixins, and generic views — building each approach hands-on.

WORK EXPERIENCE

QA Tester & Content Contributor | Remote | 2023 – 2024

- Tested web applications built by a senior developer, identifying bugs and usability issues, and provided detailed feedback along with feature and UX enhancement suggestions.
- Contributed content to a Firebase-powered quiz application by adding accurate quiz questions, options, and solutions, while gaining exposure to Firebase's real-time database.
- Assisted with data entry for a hotel mapping project, accurately adding hotel details and locations to improve the usability of a travel/hotel application.
- Gained hands-on experience in quality assurance, structured content management, and cross-functional communication with developers.

EDUCATION

BSc in Computer Science and Information Technology (CSIT)

Tribhuvan University — Kathmandu College of Technology, Lokanthali, Bhaktapur | 2022 – 2026

High School (+2 Science)

Bagiswori College, Bhaktapur | 2020 – 2022

CERTIFICATIONS / TRAINING

- Django and Python — College Coursework & Self-Learning, 2022
- HTML & CSS — College Coursework & Self-Learning, 2022
- DevOps Fundamentals — AWS, Microsoft Azure, Docker, Containerization (Extra-curricular course), 2026

LANGUAGES

English · Nepali · Newari
